Update #1 March 2020

Sturt's Steps is a multi-faceted project that will provide visitor-experience infrastructure in the Unincorporated Area of Outback NSW.

## Welcome to your first newsletter

*Please note that you have been included on this newsletter distribution for very good reason. The success of any project is dependent on ensuring that everyone is across what is happening so that as opportunities arise or potential problems are perceived they are brought to the attention of those that can influence the outcome. So as we begin this journey please remember to reach out to the project managers at any time during this project delivery. [Click here](#) to contact the Project Manager. However if you would like to unsubscribe you can do so on the link below and we will be sorry to see you go.*

### Great news to start our first communications with you...

As we returned from our familiarisation of the project location, we are now in the final stages of receiving the Deed of Agreement from Infrastructure NSW. When this returns as a fully signed document we will be hitting the ground running to begin implementing all 13 elements of the grant.

Thank you to those who completed our stakeholder form already and I am so pleased with the comments and suggestions in the form already. If you have not completed this form, please do so by [clicking here](#). Early results are below for your information.

The governing committee of the project will be meeting in late March and consists of Milparinka Heritage & Tourism Association, Transport for NSW, Public Works Advisory, Tibooburra Local Area

Land Council, Tibooburra Village Committee, Department of Premier and Cabinet and National Parks & Wildlife Service. I will be sure to update everyone on this and the first phase of operations.

All the best during these interesting times in our world right now. Stay safe and healthy!

## *Lori Modde*

Project Manager

Sturt's Steps Tourism Infrastructure Project on behalf of

Milparinka Heritage & Tourism Association

The time that was spent in region in early March was exceptionally valuable in understanding more about how this project can add value to the visitor experience in Corner Country. We are sorry we couldn't get to everyone but very pleased with how many we did get to see and meet. So thank you for your valuable time, insights, suggestions and knowledge. We will continue to utilise the amazing resources we have in the area as we progress. Interim results from the stakeholder feedback form are below.

As we build more and more experiences with this project, please share the content with potential visitors to the area. As this grant is an infrastructure grant we lack the ability to get the word out there but like any successful marketing, word of mouth and collaboration in communications is key. So please keep an eye on the social media pages that have been set up for this project and share to your own networks.
